Canada's favourite K-12 Video Streaming Platform

- ✓ **Fosters creative thinking**
- ✓ **Encourages discussion**
- ✓ **Inspires critical thinking**
- ✓ **Promotes inquiry skills**

- A **fully BILINGUAL** platform.
- Users can toggle and **search in English or French**.
- **Content available in multiple languages** - including Anishinaabe, Coast Salish, Cree, Inuktitut, Ojibway and Oji-Cree, and Spanish videos. Easily select using the "All Languages" dropdown.
- **Easy, fast access** to all content
- Videos and Podcasts are separated for easier searching.
- Full Titles and Segments appear together in search results, or searchers can choose to show one or the other.
- **A wealth of NEW content has been and continues to be added on a weekly basis**
- Features an incredible collection of Indigenous content that now allows us to have the largest collection of content by and about Indigenous peoples and issues in Canada.
- **Persistent URLs** that allow for posting of featured content, sliders as well as the entire Indigenous Content Only filter.
- **Create your own custom sliders** for the home page to feature content.

Unmatched Indigenous Content

We are proud of our many partnerships with both Indigenous and non-Indigenous filmmakers across the country. Your CORE subscription offers you an extraordinary, unparalleled collection of curated content for all of your INDIGENOUS STUDIES classes. We are delighted to showcase these incredible programs by some of Canada's most renowned producers. Thousands of Indigenous videos at your fingertips! **Use the INDIGENOUS CONTENT ONLY filter for any search.**

**Sign Up today for
FREE 30-day TRIAL**

Sign up today for your no-obligation FREE 30 day trial. Have your teachers create accounts and use the platform as much as they want. Simply call **1-800-565-3036**.

**NOTE: YOU WILL FIND THE MAJORITY OF CONTENT IN THIS CATALOGUE,
PLUS MUCH MORE ON  SUBSCRIBE TODAY!**

Always something NEW!

ENJOY!

All About Plants Series

Grades K-6 2020 9-11 min ea Educational Voice

Plants are super important for the environment. In this animated video series, we learn how plants support life on Earth. They release oxygen, absorb carbon dioxide, regulate the water cycle and provide habitat for many types of life. Students will love this engaging and interactive series as they learn about the world around us.

Series Order #992111 \$711 (9 titles):

DVD or 3 yr Streaming Rights (K-12 Single Site)

Individual titles: \$79: DVD or 3 yr Streaming (K-12 Single Site)

Episodes include the following:

#992112	Plants and The Environment
#992114	Plants as Habitats
#992115	Plants Around the World
#992116	Different Types of Plants
#992117	How Plants Grow
#992118	Plants and Animals
#992119	Underwater Plants
#992120	Plants as Food
#992121	Characteristics of Plants

All About Photosynthesis

Grades 2-6 2017 14:22 min

Wonderscape Entertainment

We learn all about photosynthesis, the process through which plants make food, with new, precise, yet easy-to-understand, definitions and explanations. Plants need three components to make food: carbon dioxide, water, and solar energy.

Different parts of plants are involved in photosynthesis: roots, leaves, stems,

xylem, stomata, and chloroplasts. And what is produced by plants during photosynthesis? The answers to this and other questions are covered in depth with detailed graphics, diagrams and exciting video. On-screen, multiple-choice reviews at the end of each segment reinforce important concepts and make learning fun.

#WE0079 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

Matter and Energy in Organisms and Ecosystems

Grades 6-12 2021 18:35 min Wonderscape Entertainment

How do plants obtain energy? How does food give us energy?

We learn about matter and energy in organisms and ecosystems: the flow of energy in an ecosystem, how chemical changes turn matter (food) into energy for living organisms; biotic and abiotic factors in ecosystems; plants and energy, photosynthesis, energy transformation, energy producers and consumers; nutrients, digestion, metabolism, chemical respiration, metabolic rate, carnivores, omnivores, herbivores, food chains and food webs; matter, energy, organisms, and conservation of mass and energy in an ecosystem; environments, scavengers, decomposers, predators, prey; interdependence.

#WE0094 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

All About Birds Series

Grades K-6 2020 11-15 min ea Educational Voice

Birds! They're everywhere! There are thousands of species and they can be found on every continent. In this animated series, Professor Birdie with her young friends Aaron and James give elementary students get a wonderful overview of birds. From the mythology of birds to the fascinating story of bird migration and bird habitats, young students will learn all there is to know about birds!

Series Order #992086 \$790 (9 titles): DVD or 3 yr Streaming Rights (K-12 Single Site)

#992087	Bird Stories
#992088	Strange Birds
#992089	Bird Evolution
#992090	Birds and Humans
#992091	Bird Migration
#992092	Breeding and Development
#992093	How Do Birds Fly?
#992094	How Do Birds Eat?
#992095	Bird Habitats
#992096	What is a Bird?

Birds: The Last Living Dinosaurs - And The Dino Embryo Discovery That Proves It

Grades 9-12 2022 21:47 min Wonderscape Entertainment

Learn all about the latest dinosaur embryo discovery in China and how scientists now view birds as today's last living dinosaurs. What is the "hopeful monster" theory? Did all dinosaurs actually have feathers? Why are birds so small today if they descended from dinosaurs? Is there an evolutionary advantage to being small? How did the round, fleshy dinosaur snout become a bird

beak? The answers to these questions are covered in depth with detailed graphics, engaging examples and exciting video that reinforce important points and make learning fun.

#WE0102 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

Butterflies, Moths and Metamorphosis - Varieties, Life Cycle and Fun "Flit and Flutter" Facts

Grades 4-8 2022 21:53 min Wonderscape Entertainment

Learn all about butterflies, moths and the amazing process of metamorphosis. How many varieties of butterflies and moths are there? Why do butterflies have spots on their wings that look like eyes? What evolutionary benefit might these "eyes" provide? Do moths really make silk? How does a caterpillar become a butterfly or moth?

What is a chrysalis? How are Monarch

butterflies capable of multi-generational migration where the descendants return to the exact location of their ancestors starting point? How can we help endangered butterflies survive?

The answers to all of these questions and more are covered in depth with detailed graphics, diagrams and exciting video that reinforce important concepts and make learning fun.

#WE0103 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

The Trumpeter Swan Returns

Grades 9-12 2020 6 min Parallel Vision Productions

These incredible birds are the largest swans in the world. The swans that we usually see on the lakes in Ontario, are mute swans that were brought over from Europe when the trumpeter swans went extinct. Harry Lumsden, a retired biologist from the Ministry of Natural Resources, made it his life mission to revive the species and now there are close to two thousand trumpeter swans in Ontario and

forty thousand in the world. Harry, who is now 96 years old, sat down with film producer Michelle Melles to tell his story.

#PVP002 \$59: DVD or 3 yr Streaming Rights (K-12 Single Site)

All About Insects

Grades K-6 2020 11-14 min ea Educational Voice

We are surrounded by insects, so it's important to get to know them a little more. Insects are incredible and although by their size they might seem unimportant, they are fundamental for nature's balance. In this engaging, animated series, young students learn all about the wonderful world of insects!

Series Order # \$790 (9 titles): DVD or 3 yr Streaming Rights (K-12 Single Site)

Individual titles: \$79: DVD or 3 yr Streaming Rights (K-12 Single Site)

Episodes include the following:

#992143	What is an Insect?
#992144	Insects Around the World
#992145	Insects - Senses and Communication
#992146	Insect Ecology
#992147	Breeding of Insects
#992148	Insects and Humans
#992149	Insects Are Important
#992150	Habitats of Insects
#992151	How Insects Move

The Animals in Africa

Grades K-5 15 min 2017 Kunskapsmedia Group

In this film, we learn where Africa is and what kinds of animals live there. We take a closer look at many different kinds of animals and learn about their characteristics and how they are grouped. We meet the gecko lizard that cannot blink but must lick itself in the eyes! We learn about wildebeests, baboons, giraffes, and elephants. Who are "The Big Five"? What does a secretary bird look like? How high can a termite get? We learn all this in the film about animals in Africa!

#KMG017 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

The Animals in North America

Grades K-5 14 min 2017 Kunskapsmedia Group

In this film, you will learn about where North America is located and the types of animals that live there. We will take an in-depth look at different animals and learn about their characteristics and about how they are grouped. You will meet the grizzly bear, the rattlesnake and the bald eagle. You will also be introduced to the black widow spider and learn how high a cougar can jump. You will even discover why it is that flamingos are pink! All this and more can be found in the film about the animals of North America!

#KMG018 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

Hibernating Animals: The Science of Slowing Down

Grades 3-8 2018 16:42 min Wonderscape Entertainment

What is hibernation? Why do animals hibernate? We learn about: the adaptation of hibernation, classes of animals that hibernate, estivation (dormancy to conserve energy in hot periods or when habitats are disrupted), preparing for hibernation, hyperphagia, hibernacula (den) preparations, triggers for hibernation, circannual rhythms, physiological changes during hibernation, torpor (modified hibernation), interesting

hibernation facts. Detailed graphics, exciting video and multiple-choice reviews reinforce important concepts.

#WE0091 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

A World Unnoticed

Grades 9-12 2021 94 min HG Distribution

French with English subtitles.

Currently in hibernation are the amphibians and reptiles of Quebec. Of all the animal species living in this area, they are the most unknown and discreet. Their story starts at the end of winter, as the snow melts.

Accompany them through one year in all the stages of their life, as they evolve, season by season. Discover their struggles and their

reality, drastically changing through our influence.

#HG0001 \$159: DVD or 3 yr Streaming Rights (K-12 Single Site)

Un monde inaperçu

Grades 9-12 54 min HG Distribution

Dans un profond sommeil depuis plusieurs mois, sont les amphibiens et reptiles du Québec. De toutes les espèces animales, elles sont parmi les plus discrètes et les plus méconnues. Leur histoire commence à la fin de l'hiver, dès la fonte des neiges. Voyez-les à travers toutes les étapes de leur vie, en survolant les quatre saisons. Découvrez leurs luttes, et leur réalité qui change drastiquement, sous notre influence.

#HG0001FR \$159: DVD or 3 yr Streaming Rights (K-12 Single Site)

Invertebrates - Sponges, Worms, Mollusks, Arthropods, Echinoderms

Grades 6-12 2018 19:28 min Wonderscape Entertainment

Learn all about invertebrates. What are the major characteristics of invertebrates? What are sponges, worms, mollusks, arthropods and echinoderms? How are they all uniquely different? The answers to all of these questions and many more are covered in depth with detailed graphics, diagrams and exciting video. On-screen, multiple-choice reviews at the end of each segment reinforce

important concepts and make learning fun.

#WE0093 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

Camels - The Ships of the Desert

Grades 3-8 2022 21:40 min Wonderscape Entertainment

For thousands of years, the people of the Middle East relied on camels for travel and transportation, nourishment and fibres; and camels are still an important part of Middle Eastern culture. Why are camels commonly referred to as "the ships of the desert?"

Why do camels have humps? What are the differences between dromedary and bactrian camels? How can camels drink up to fifty

gallons of water in less than five minutes? What is the life cycle of a camel? How can we save camels from becoming extinct?

The answers to all of these questions are covered with detailed graphics, diagrams and exciting video that reinforce important concepts.

#WE0104 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

Rhinos and Hippos - Species, Life Cycles and Fun Facts

Grades 3-8 2022 20:05 min Wonderscape Entertainment

In this high-definition program, learn all about rhinos and hippos. What are the similarities and differences? Are hippos related to rhinos? How fast can a hippo run?

How do rhinos and oxpecker birds have a symbiotic relationship? How do hippos and barbel fish have a symbiotic relationship?

How can we help rhinos and hippos from becoming extinct? The answers to all of

these questions and more are covered in depth with detailed graphics, diagrams and exciting video that reinforce important concepts and make learning fun.

#WE0110 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

All About Animal Cells - Plant Cells

Grades 7-12 2017 23:53 min Wonderscape Entertainment

Students will learn what cells are and why they are important to living things. They will also understand the parts of an animal cell and plant cell and the differences between them. The show covers, in detail, why cells need to divide and the two types of cell division (Mitosis and Meiosis). Lastly, students will see how cells are organized in the human body.

#WE0075 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

All About Genetics: Dominant and Recessive Genes

Grades 9-12 2017 19:28 min Wonderscape Entertainment

Learn all about genetics with new, precise, yet easy-to-understand, definitions and explanations. Why are certain traits either dominant or recessive? What are genes, DNA and chromosomes? What is genetic inheritance? The answers to all of these questions are covered in depth with detailed graphics, diagrams and exciting video. On-screen, multiple-choice reviews at the end of each segment reinforce important concepts and make learning fun.

#WE0077 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

Genetics - How Traits Are Inherited

Grades 9-12 2022 16 min Kunskapsmedia Group

Why do you have brown eyes like your dad and not blue eyes like your mom? In this video, we learn how traits are inherited. This is called genetics! In this video, we learn about Punnett squares and how our genes are put together. We go through terms like zygote, cell division, chromosome, cross-breeding and clones. We investigate the difference between dominant and recessive traits, and what determines whether a gamete develops into a girl or boy!

#KMG041 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

All About Natural Selection and Adaptations

Grades 9-12 2017 26:24 min Wonderscape Entertainment

Learn all about natural selection and adaptations with new, precise, yet easy-to-understand, definitions and explanations. What is natural selection? What are adaptations? What are some ways that animals have adapted to their environments? What are fossils? What is the fossil record? What factors affect how well the fossil record is preserved? The answers to these questions

are covered in depth with detailed graphics, diagrams and exciting video. On-screen, multiple-choice reviews at the end of each segment reinforce important concepts and make learning fun.

#WE0078 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

Taxonomy: The Classification of Living Things

Grades 6-12 2021 15 min Kunskapsmedia Group

There are many species of animals, plants and fungi in the world. But where do these classifications come from? That's what we're going to learn in this video! We'll learn the background of modern taxonomy and how Carl Linnaeus influenced it. We go through terms like species, genus, pathogens and cryptogams. We also learn what domains are and why all organisms have a Latin name.

#KMG036 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

Biology Terms: Living, Non-Living, Life Cycle, Endangered Species, Extinct

Grades 6-12 2022 22:10 min

Wonderscape Entertainment

Learn all about important biology terms that align with biology. Terms are defined and exemplified for better comprehension. Terms covered are: Living; Non-Living; Life Cycle; Endangered Species; Extinct. Detailed graphics, diagrams and exciting video reinforce important concepts and make learning fun.

#WE0101 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

Charles Darwin and the Theory of Evolution

Grades 9-12 2022 21:24 min

Wonderscape Entertainment

In this program, learn all about the life and scientific theories of naturalist Charles Darwin. What is natural selection? What is adaptation? What are the three main components to Darwin's Theory of Evolution? What is the present-day significance of

Darwin's scientific theories? The answers to all of these questions and more are covered in depth with detailed graphics, diagrams and exciting video that reinforce important concepts and make learning fun.

#WE0105 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

Biomes Series

Grades 6-12 2021 13 min ea Kunskapsmedia Group

What in the world is a biome? Students will learn all about these fascinating environments in this 4-part video series that examines some of the primary biomes found on earth. From forest to grasslands and from freshwater environments to deserts, students will learn that each biome is unique because of its climate as well as its variety of plant and animal life.

Series Order #KMG042 - \$519.80: DVD or 3 yr Streaming Rights (K-12 Single Site)

Forests: Biomes Series

In this video, we learn about forests, one of the world's biggest biomes. We'll start by discussing what a forest really is - because it's a lot more than just trees! The forest is in many ways a key resource, above all for the climate, but also for the economy. The forest absorbs part of the carbon dioxide we release when we burn fossil fuels. We learn about the layers that make up a forest. We also take a closer look at the types of forest that exist and what plants and animals we find there. Why do leaves change color in the fall? We'll learn that too.

#KMG043 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

Deserts: Biomes Series

When we think of the desert, perhaps we mostly think of large expanses of sand dunes. But only a tiny part of the Earth's deserts are like that. We learn the difference between the two main types of deserts - dry deserts and polar deserts. We also learn where on Earth deserts form. We go through terms like tropic, zenith and rain shadow.

#KMG044 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

Oceans: Biomes Series

Our oceans -what are they? What does overfishing do? How does photosynthesis work at sea? What could a marginal sea be? We'll also be taking a look at marine plants and animals. And we'll explore some of the challenges and problems our oceans face, and what we can do to make a difference.

#KMG045 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

Freshwater: Biomes Series

We take a look at what makes freshwater so important and find out which plants and animals live in a freshwater habitat. We'll also explore some of the challenges and problems the world faces -like pollution and water shortages - and what we can do to make a difference. What is eutrophication and what is a wetland? We'll tell you all about it in this video about freshwater!

#KMG046 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

Trees: Social Interactions and their Role in the Ecosystem
Grades 3-6 2021 19:50 min Wonderscape Entertainment
 We learn all about trees and their role in the ecosystem: why we need trees; how trees respond and adapt to their environment and process energy; oxygen production; fruit bearing trees; how tree seeds are spread; medicine from trees; parts of a tree; tree rings; deciduous

and coniferous trees; tree species; how trees make and store energy through photosynthesis; types of forest ecosystems; forest layers; cooperative interaction among trees via fungal networks; impacts of deforestation; sustainability of forests; and the role of conservationists. Detailed graphics, diagrams and exciting video reinforce important concepts.
#WE0112 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

Habitats and Biomes: Abiotic and Biotic
Grades 3-6 2021 26 min Wonderscape Entertainment
 Learn all about habitats and biomes. What are the five major types of biomes? What do the terms abiotic and biotic mean? What animals are found in the various biomes? What is an ecosystem? The answers to these questions and more are covered in depth with detailed graphics and exciting video. On-screen, multiple-choice reviews at the end of each segment reinforce important concepts and make learning fun.
#WE0090 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

Bacteria

Grades 6-12 2016 30:03 min Wonderscape Entertainment

Learn all about the human skeletal and muscular systems with new, precise, yet easy-to-understand, definitions and explanations. What are the main functions and components of the skeletal system? What are the types of bones in the skeletal system? What are muscles? What are the different types of muscles in our bodies, and what are their jobs? The answers to all of these questions are covered in depth with detailed graphics, diagrams and exciting video. On-screen, multiple-choice reviews at the end of each segment reinforce important concepts and make learning fun.

#WE0083 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

COVID-19 - The Possible Future of COVID-19: From Pandemic to Endemic

Grades 7-12 2022 19:30 min Wonderscape Entertainment

In this 2022 high-definition program, learn all about the possible future of COVID-19. What does "endemic" mean? Will I still have to wear a mask? Is Omicron the last COVID-19 virus I need to worry about? Do I still need to get booster shots? The answers to all of these questions and more are covered in depth with detailed graphics, diagrams and exciting video that reinforce important concepts.

#WE0111 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

Understanding COVID-19 Variants - Delta, Lambda and Beyond

Grades 6-12 2021 18:58 min Wonderscape Entertainment

COVID-19 variants had a devastating effect on people worldwide. We learn details about vaccines; variants; how virus variants emerge; virus replication; genetic mutation in viruses; transmissibility; viral load; broad immune system responses; breakthrough infections; variants of interest; variants of concern; naming variants; and slowing the spread. Detailed graphics, diagrams, and exciting video reinforce important concepts.

#WE0113 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

COVID-19 - Understanding Breakthrough Infections

Grades 7-12 2022 19:22 min Wonderscape Entertainment

In this 2022 high-definition program, learn all about COVID-19 variants and breakthrough infections. Why are vaccinated people, even those with booster shots, catching COVID-19? How does the vaccine still protect you? How is Omicron different from the Delta variant? Why are variants developing and spreading? What does the future look like with this mutating virus? These questions and more are covered in depth with detailed graphics, engaging examples and compelling video that reinforce important points. We may live in uncertain times, but the certainty of science is reassuring to us all.

#WE0106 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

Pandemics

Grades 6-12 2020 5 min Kunskapsmedia Group

The word pandemic comes from Greek and means "pertaining to all people". At the end of 2019, the infectious disease covid-19 was discovered. It then spread all over the world, which had enormous consequences for millions of people. In this educational clip, we learn about the characterizes a pandemic; known pandemics such as the Great Death, the Spanish flu, the Asian, the Hong Kong flu and the swine flu; You will also learn about infodemics - rapid, massive spreading of both false and true information - as well as the importance of credible sources in times when false rumors spread quickly.

#KMG003 \$59: DVD or 3 yr Streaming Rights (K-12 Single Site)

The Next Pandemic: Is a Deadlier Virus on the Horizon?: W5

Grades 9-12 2021 22 min CTV

Experts warn that the next pandemic could be much worse than COVID-19. In this program, we meet virologist Angela Rasmussen who is joining a new ground-breaking lab in Saskatchewan that will allow safe study of new pathogens and help build new vaccine technologies for animals and humans.

#CTV887 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

The Magical Human Body Series

Grades 3-6 2020 4-12 min ea Educational Voice

The human body is fascinating. In this colourful animated series, students will journey inside the body to learn all about it's various systems and components and learn how to stay healthy.

Series Order #992162 \$948 (12 programs):

DVD or 3 yr Streaming Rights (K-12 Single Site)

Individual titles: \$79: DVD or 3 yr Streaming Rights
(K-12 Single Site)

Episodes include the following:

#992163	The Brain
#992164	The Amazing Immune System
#992165	The Nose
#992166	The Fabulous Ears
#992167	The Mysterious Mouth
#992168	The Wonderful Lungs
#992169	The Super Skeleton

The Human Body Series

Grades 5-10 2020-2022 52 min Kunsapsmedia Group

The human body is made up of multiple interacting systems. In this series, we will learn about the cardiovascular, immune, respiratory and muscular systems. It takes ALL of your body systems working together to help living things survive.

Series Order #KMG006 \$519.80 (4 programs)

DVD or 3 yr Streaming Rights (K-12 Single Site)

Breathing and Your Lungs

In this video, we explore how the respiratory system works. We learn about cellular breathing and the organs involved in the breathing process -lungs, alveoli, bronchi and diaphragm; what a gas exchange is; how our body controls breathing, and conditions that affect breathing. Finally, we'll talk about how to keep our respiratory system healthy.

#KMG007 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

The Cardiovascular System

In this film we explore the cardiovascular system: hemoglobin transports oxygen in the red blood cells, how blood delivers nutrients and disposes of waste; the role of white blood cells in fighting disease and infections; the components of blood, the role of platelets and the function and structure of the heart; pulmonary and systemic circulation; blood vessels -arteries, capillaries and veins; blood pressure and pulse; and how to keep your heart healthy.

#KMG008 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

The Immune System

This video will teach us about the human immune system and how it keeps us healthy. We'll be going through concepts like transmission of germs, surface barrier responses, internal responses, vaccines, allergies, and blood cells. We'll also be looking at the difference between the immune system as a whole and our body's defenses. To wrap things up, we'll describe a few immune system disorders and provide a few pointers to promote a healthy immune system.

#KMG009 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

Skeleton and Muscle

They hold us up and help us move our bodies. This video explores our bones and muscles! We look at the different kinds of bones: long bones, flat bones and irregular bones. We also learn terms like smooth muscle, saddle joint and periosteum. Finally, we'll talk about how to keep our bones and muscles healthy.

#KMG010 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

All About The Circulatory System

Grades 5–10 2017 18:11 min Wonderscape Entertainment

Learn all about the circulatory system with new, precise, yet easy-to-understand, definitions and explanations.

What is the function of the circulatory system? What parts of the body make up the circulatory system? What are the parts of the heart and their function within the circulatory system? What are the types of blood vessels and their functions? And lastly, what is blood and its function? The answers to all of these questions are covered in depth with detailed graphics, diagrams and exciting video. On-screen, multiple-choice reviews at the end of each segment reinforce important concepts and make learning fun.

#WE0080 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

All About The Endocrine System

Grades 5-10 2017 14:33 min Wonderscape Entertainment

Learn all about the endocrine system with new, precise, yet easy-to-understand, definitions and explanations.

What is the function of the endocrine system? What are the major glands and their functions? What happens if the endocrine system is not working properly? The answers to all of these questions are covered in depth with detailed graphics, diagrams and exciting video. On-screen, multiple-choice reviews at the end of each segment reinforce important concepts and make learning fun.

Meat the Future

Grades 9–12 2020 90 mins LizMars Productions Inc.

WINNER – Science World of Knowledge – Best Director

WINNER – Directors Guild of Canada – Best Editing Documentary

“Engrossing, Persuasive, Compelling.” – Variety

Imagine a world where real meat is produced sustainably without the need to breed, raise and slaughter animals. This is no longer science fiction, it's now within reach. At the forefront of this urgent frontier is Mayo Clinic trained cardiologist Dr. Uma Valeti, the co-founder and CEO of Upside Foods (previously Memphis Meats), the leading start-up of the “cultivated” meat revolution. From the world's first meatball which cost \$18,000 per pound to the first chicken fillet and duck a l'orange for half the cost, the film follows Valeti and his team over five years as the cost of production plummets, and consumers' eye the imminent birth of this timely industry.

Includes Discussion Guide and Educators Guide (PDF)

The Study of the Earth Series

Grades 6-12 2022 14 min ea Kunsapsmedia Group

This 3-part series will provide students with an excellent understanding important concepts such as the rock cycle, the three main types of rocks and the key elements of minerals. The series also introduces landforms along with the concepts of plate tectonics, erosion and weathering. *Includes PDF Teacher's Guides.*

Series Order #KMG040 \$389.85: DVD or 3 yr Streaming Rights (K-12 Single Site)

Earth's Surface - Minerals

Geology is the study of the Earth and its surface. In this video, we learn about minerals - an important building block of our planet. They are found in rock, in the Earth's crust and in the soil. And many key elements are minerals, such as coal. This video investigates what minerals are, how they are formed and how they are classified. We learn about the crystalline forms of minerals and terms such as streak and silicate minerals. #KMG035 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

Earth's Surface - Landforms

There are features on Earth known as "landforms": mountains, plains, lakes, islands, and many more. In this video, we'll find out about landforms and how they originated. We'll be looking at mountains, hills, valleys, plains, plateaus, watercourses, and landforms found along near coastal areas. We'll explain concepts such as plate tectonics, erosion, weathering, and uplift. How do glaciers shape the landscape below? How are plains formed? What's the difference between a bay and a gulf? This video will tell us!

#KMG038 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

Earth's Surface - Rock

What is rock? Where did it come from? This video will show us. We'll be finding out about the three main groups of rock — igneous, sedimentary, and metamorphic — how they are formed and what characteristics they have. We'll also see some amazing rock formations, like Grand Canyon and Devils Tower. And we'll get to know all about the Rock Cycle.

#KMG039 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

The Water Cycle: Precipitation, Evaporation, Condensation, Conservation

Grades 2-6 2021 22:29 min

Wonderscape Entertainment

Learn all about the water cycle. What do the terms "evaporation," "condensation," and "precipitation" mean? Where is most of the earth's water found? What is a glacier? How can we conserve water?

The answers to all of these questions and more are covered in depth with detailed graphics, diagrams and exciting video.

#WE0100 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

Rocks, Minerals and Geology

Grades 3-8 2017 18:59 min

Wonderscape Entertainment

What are the similarities and differences between rocks and minerals? What are the properties used by scientists to identify minerals? What are the environmental conditions during the formation of sedimentary, igneous and metamorphic rocks? What are the physical changes that occur in rocks and minerals as a result of weathering and erosion? How are rocks and minerals used in our everyday lives?

Earth and Our Solar System

Grades 4-8 2016 4:50 min

Wonderscape Entertainment

We learn all about Earth and our solar system through detailed graphics, diagrams, and exciting video: the Milky Way, the components of our solar system, the role of gravity in our solar system and the Milky Way Galaxy, the characteristics of the inner and outer planets, orbits, the asteroid belt and the gas present on the sun.

#WE0085 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

Earth's Materials And Systems

Grades 6-12 2016 22:03 min

Wonderscape Entertainment

This program explores the characteristics of Earth's four systems: Geosphere, Biosphere, Hydrosphere and Atmosphere. Understand how the Earth's systems interact with each other. Detailed graphics, diagrams, and exciting video, as well as on-screen, multiple-choice reviews at the end of each segment reinforce

important concepts.

#WE0086 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

Earthquakes Around the World

Grades 6-12 2021 18:37 min

Wonderscape Entertainment

What is an earthquake? What causes an earthquake? What are plate tectonics and subduction? What are divergent, convergent, and transform boundaries? What are the core, mantle and crust of the earth? What are the biggest earthquakes of all time, and what have seismologists learned from them?

#WE0087 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

EARTH SCIENCE

Oceans of the World:

Currents, The Gulf Stream and Climate Change

Grades 6-12 2022 21:40 min

Wonderscape Entertainment

In this high-definition program, learn all about ocean currents and how climate change is affecting them. What is the Coriolis Effect? What important role does the Gulf Stream play in regulating ocean water temperatures? What is the Gulf Stream Collapse? How can we save our oceans?

The answers to all of these questions and more are covered in depth with detailed graphics, diagrams and exciting video that reinforce important concepts and make learning fun.

#WE0108 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

Our Changing World of Weather:

El Niño and La Niña

Grades 6-12 2022 18 min

Wonderscape Entertainment

In this program, learn all about our changing world of weather. What is an El Niño year? What is a La Niña year? What does ENSO-neutral mean? How is climate change affecting the ocean currents, and what can we do to prevent it? The answers to all of these questions and more are covered in depth with detailed

graphics, diagrams and exciting video that reinforce important concepts and make learning fun.

#WE0109 \$129: DVD or 3 yr Streaming Rights (K-12 Single Site)

The Development of Life on Earth Series

Grades 6-12 2019 15 min ea Kunskapsmedia Group

This series gives a great overview of the birth of the Earth, and the emergence and evolution of life on Earth. Journey back through time to see how through billions of years of evolution and adaptation to understand the development and survival of living organisms. From the significance of the nebular hypothesis to Darwin's theory of natural selection, this 3-part series will give students a thorough understanding of the development of life.

Series Order #KMG020 \$389.85 (3 programs):
DVD or 3 yr Streaming Rights (K-12 Single Site)

Early Life

What were the first living organisms on Earth? In this episode, we travel billions of years backwards in time to learn how Earth was created. We hear about the significance of the nebular hypothesis theory and how Earth has changed since its inception. We learn about the formation of our solar system, development of Earth's land, oceans and atmosphere, and tectonic plate movements.

#KMG021 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

Life Through the Ages

In this episode we will learn about the geological time scale -what was the climate like a billion years ago and what living organisms existed on Earth at that time? Why did the dinosaurs actually die out? We discuss concepts such as Precambrian, Paleozoic, and Mesozoic, and learn what an Archaeopteryx is. We will explore all these things in the second part.

#KMG022 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

Evolution and Darwin

In this episode we take a closer look at Charles Darwin -who was he and why is he important to our understanding about the development of life? We explore what evolution is and the meaning of natural selection. Why are concepts such as population, competition, and adaptation important to the development and survival of living organisms? We will learn all this in the third and final part of Development of Life.

#KMG023 \$129.95: DVD or 3 yr Streaming Rights (K-12 Single Site)

Big Bang: The Theory and the Origin of the Universe

Grades 6-12 2017 14 min Kunskapsmedia Group

The majority of today's astronomers and scientists support the theory we call the Big Bang. But what does the theory actually entail? How did it develop? Who was Edwin Hubble and what are spectral lines? In this film, we explore the background of the Big Bang theory. Was it really a bang? What different substances and particles were formed right after the Big Bang? We will explore these things. We will also find out how nebulae, stars, planets and solar systems were created. And finally, we will learn what evidence exists that supports this theory. What evidence is there that the Big Bang theory could be true?

Grades 3-8 2018 56 min HG Distribution

Pourquoi le ciel est bleu? Que signifie ADN? Comment les avions peuvent-ils voler? Pourquoi les bateaux flottent? Cette série est dédiée aux enfants (mais pas uniquement) et répond à 22 questions scientifiques.

Le choix narratif est basé sur le style de vie de la protagoniste, Margot, une vieille dame solitaire aux passions non conventionnelles, peu disposée à montrer de l'affection, mais... attention, l'apparence est souvent trompeuse!

En plus de révéler les raisons scientifiques de certains phénomènes naturels, les 22 épisodes sont liés par une intrigue qui nous montrera chronologiquement une « différente » Margot.

DURÉE: 22 x 2:00 - 4:00 min

- Épisode 1: Pourquoi le ciel est bleu?
- Épisode 2: Qui peut marcher sur l'eau?
- Épisode 3: Pourquoi la mer est salée?
- Épisode 4: Comment fait-on pour respirer?
- Épisode 5: Liquide ou solide?
- Épisode 6: Qui est né en premier: l'œuf ou la poule?
- Épisode 7: Qu'est-ce qu'un son?
- Épisode 8: Comment vole une montgolfière?
- Épisode 9: Pourquoi la glace est froide
- Épisode 10: Est-ce que le feu respire?
- Épisode 11: Qu'est-ce que la foudre?
- Épisode 12: Pourquoi je vois des visages partout?
- Épisode 13: Qu'est-ce que sont les moisissures?
- Épisode 14: Acide ou basique? Je vais te le dire!
- Épisode 15: Je peux être invisible?
- Épisode 16: Chimie ou magie?
- Épisode 17: Comment se forment les nuages?
- Épisode 18: Pourquoi la levure gonfle?
- Épisode 19: Pourquoi les bateaux flottent?
- Épisode 20: ADN: que signifient ces 3 lettres?
- Épisode 21: Comment les avions volent-ils?

Dr. Roberta Bondar: Canada's First Female Astronaut in Space

Grades 6-12 2022 16 min CTV

For years, Dr. Roberta Bondar studied life on Earth. She had trained in the fields of ecology and zoology, spent time as a summer student working with insects and always went camping with her parents growing up. But it wasn't until her journey into space 30 years ago — becoming the first Canadian woman and neurologist to do so — that her view of our planet truly changed.

Coding for Kids Video Streaming Playlist

Grades JK-2 2020 30 min (8 segments) Educational Voice

Digital technology is a big part of the lives of many children today, as our children are surrounded by the Internet with smartphones, computers, video games, etc., which pushes us towards teaching programming to children. Like learning physics, mathematics, chemistry or biology, it is important for children to understand the basic building blocks of an integral part of their lives. Teaching coding to children helps them realize that what is happening around them is not magic, and that they can create useful applications and games on their own. In these fun, animated sequences, Aaron teaches us some important coding tips and techniques!

Playlist includes the following 8 videos:

Python; Block Coding; Coding Courses; Games and Coding; Binary; Coding Words; What is Coding?; Game Based Coding.

Wacky Number Songs Playlist

Grades JK-5 2021 80 min (40 songs x 2 min) Apartment 11

Wacky Number Songs is a collection of 40 video songs about math-related concepts. Performed by Ava, each song is a zany, fun-filled number that explores numbers and math concepts from all angles! Based on the curriculum, the songs inspire kids to see math all around us -from the kitchen to the soccer field -all while singing along to the catchiest, coolest tunes. Some of the highlights include how to save money; the four kinds of quadrilaterals; capacity of containers; polygons; measuring angles; units of time; math in sports; and much, much more. Visit www.mcintyre.ca for complete list and descriptions.

The Wisdom of Trauma

Grades 10-12 2022 61 & 88 min versions Video Project

Trauma is the invisible force that shapes our lives. It shapes the way we live, the way we love and the way we make sense of the world. It is the root of our deepest wounds. Bestselling author, speaker and Order of Canada recipient Dr. Maté gives us a new vision: a trauma-informed society in which parents, teachers, physicians, policy-makers and legal personnel are not concerned with fixing behaviors, making diagnoses, suppressing symptoms and judging, but seek instead to understand the sources from which troubling behaviours and diseases spring in the wounded human soul.

This additional content, A Living Curriculum: Stories of Life through Darkness is available online. Please contact us at info@mcintyre.ca for information on how it can be accessed.

Also contact McIntyre Media at info@mcintyre.ca if you are interested in having Robb Nash visit your school.

Behind Her Smile

Grades 10-12 2022 23 min CTV

A former Boston College hockey player alleges she was raped in 2015 by one of the school's football players and that school officials failed to support her. In an interview with W5, Tori Sullivan, a 25-year-old forward with the Boston Pride of the six-team Professional Hockey Federation, said that she was sexually assaulted following a party on Halloween in 2015.

Sullivan said she told teammates and school officials about what had happened during the weeks following her alleged rape. As Sullivan struggled to cope with the trauma, she began to self-medicate with alcohol and suffered from suicidal ideation.

As her health deteriorated and Sullivan chose to take a medical leave from Boston College, she said her hockey coaches directed her teammates to block her on social media, and drop her from group text messages. In 2017, when Sullivan said she was ready to return to campus and resume her hockey career, the school's coaching staff kicked her off the team.

The French Revolution

In this film, we travel back to the late 18th century France and follow the development of the French Revolution. We learn about King Louis XVI and his excesses; the three estates - clergy, nobility and bourgeoisie; the underlying causes of the revolution – tax increases, crop failure and unrest among the poor; the creation of a National Assembly; the Storming of the Bastille; the abolishment of feudalism; the Reign of Terror; Maximilien de Robespierre; and the aftermath of the French Revolution, a dramatic period that was so important in history. The French Revolution formed the basis for many of today's political ideologies; the new idea of a fairer society spread around the world and a new social order started to develop.

The Russian Revolution

At the turn of the 20th century, many Russians were dissatisfied with their life of poverty and the tsar, a sovereign emperor, was losing popularity and trust. European countries now had democratically elected parliaments, and many Russians wanted political change. On Bloody Sunday, 2005, over 1500 protestors were killed, but activists formed local councils – soviets – and Tsar Nicolas allowed them to establish a parliament – the duma. When World War I involved Russia, heavy losses of soldiers caused a labour crisis, food shortages, and starvation. In 1917 strikes and protests led to a military mutiny; the duma assumed power and the Tsar was forced to abdicate. We learn about Lenin and the Bolsheviks; the October Revolution; dictatorship of the proletariat; the peace treaty with Germany in 1918 which gave Finland, Latvia, Estonia, and Lithuania independence; communism; the civil war between the Red Army and Trotsky and the anti-communist White Army; the formation of the Soviet Union; and Stalin's lengthy dictatorship.

The American Revolution: The War of Independence

In the mid-18th century, Great Britain had formed thirteen colonies on the North American east coast. This would soon be where a revolution took place, where colonies would fight against their motherland, Great Britain. In this film, we will show events such as the seven year long war, the Boston Tea Party and the origin of the Declaration of Independence. We learn concepts such as triangular trade, the Founding Fathers, separatists and federalists. How is it that thirteen small colonies in North America were able to succeed – against a global power such as Great Britain? And what was life like afterwards for the citizens of the new country, the United States? How did Native Americans and slaves fare? In this film we will learn about the American Revolution, the War of Independence.

River Valley Civilizations

Grades 3-12 2017 16 min Kunsapsmedia Group

For thousands of years mankind lived as hunters and gatherers, following the crops and the animals. But something happened that made us go from a simple nomadic lifestyle to create civilizations that through farming and domesticating of animals began to build villages. In this film we will explore the importance of water in the transition from simple villages, to flourished kingdoms, to the construction of the Great Wall of China. We take a closer look at Mesopotamia, Ancient Egypt, Indus Valley and China, and learn how they developed river valley civilizations.

The Revelstoke Event

Fireball Flames Down in BC. Sunlight, Sunset in Seconds. Fireball Panics South-Central BC were only just a few of the newspaper headlines on April 1, 1965. The night before, there was a brilliant flash, a thunderous roar and windows rattled. A commercial air pilot flying to Vancouver said a flash as bright as sunlight lit his cockpit. The blast was over Revelstoke, British Columbia, and is referred to as the Revelstoke Event. Reports of the day suggested that it was actually an American spy satellite decaying in orbit. Others even proposed that it was an Unidentified Flying Saucer explosion. Is there a more conservative explanation?

#KAR001

Lake of the Healing Waters

For centuries, we've been searching for the Fountain of Youth, magical healing waters - any kind of ointment really - to make us young, strong and invincible. For every claim that such a solution has been found, there are ten that are either wishful thinking, bad science or pure hocus-pocus. In Canada, we have a curious body of water known as Little Manitou Lake - also referred to as "The Lake of the Healing Waters." The saline lake located south of Saskatoon, Saskatchewan, is purported to have many healing properties. The Cree believed that in its waters lives a powerful benevolent spirit. While it is easy to dismiss the claims of the believers, there is no discounting that those who bathe in these healing waters feel relaxed and rejuvenated.

#KAR000

The Vanishing Village of the Dead

The headline was stark and gripping: "Tribe Lost in Barrens of the North / Village of the Dead found by Wandering Trapper...." The article flowed with messages of dread from another world: "Arctic Circle.... One of the loneliest places on Earth.... Twenty-five men, women, and children.... Nothing there but personal belongings... No signs of struggle.... But, the air seemed deadly." It was November 29, 1930. The people of Halifax, Nova Scotia, were the first to read a newspaper article about the so-called Vanishing Village of the Dead at Lake Angikuni, 1000 km northwest of Churchill, Manitoba. Did the inhabitants succumb to disease or starvation? Were they the victims of animal fair play or human foul play? Or is there another explanation entirely?

#KAR003

Coghlan's Coffin

Can you come home after death? Can the ocean do the soul's bidding and take a body thousands of kilometers? Yes, according to the mystery of Coghlan's Coffin. The coffin of actor Charles Coghlan was discovered off the coast of Bay Fortune, Prince Edward Island, in 1908. Coghlan had enjoyed his summers at a local spot called Abell's Cape. Now, a coffin in the water is alarming enough. What makes this story really strange is that Coghlan had died and was buried in Galveston, Texas, in 1899. The following year, hurricane waters flooded the city. Is it possible that he simply floated back to the beautiful and peaceful shores of his beloved summer home?

#KAR002

The Plains of Abraham Mysteries

War is a futile enterprise. Generals struggle with uncertainty, wagering lives while they guess at their enemy's next moves. War's certainty lies in its cruelty. It destroys one reality and merely replaces it with another leaving new tensions in its wake and the future, once again, uncertain. The Battle of the Plains of Abraham, Quebec City, September 13, 1759 saw British general James Wolfe and the French general Marquis de Montcalm lead their armies into a battle that defined a nation. But, this is more than a war story; it is a tale of two peoples. As we will see, however, the battle was also marked by some strange mysteries involving ominous poetry, telling artwork, a deadly gift, a ghostly lover, and the legend of Montcalm's buried treasure.

#KAR004

Windigo

There is a monster haunting the northern woods of Canada. A giant, ravenous monster with an ice-heart that preys on lonely human beings, chasing away game, and threatening life with cold and starvation. Accounts from First Nations people say the Windigo's mouth is no more than a great gaping hole, having gnawed away its own lips in its insatiable hunger. And if it can, it will eat you alive. Is the Windigo merely a myth? But, what are we to make of accounts that people continue to encounter the Windigo even in this modern age? Should we view the Windigo as an artifact of the past, or does the Windigo still survive in the form of rapacious greed and unfettered appetite, that are the hallmarks of this monster?

Recycling for Kids PLAYLIST

Grades K-6 2020 9:03 min Educational Voice

Teaching children to care for the environment is an important learning experience! In this series, kids learn the importance of

recycling and what happens to all that paper!

Playlist includes:

Recycling Facts - explores the "reduce, reuse, recycle" symbol, gives interesting facts about recycling and explains the significance of the recycle logo. (1:49)

How is Paper Recycled? - Wasted paper goes through different steps in the process of recycling to come back to new paper that is clean in rolls and ready to be cut and sent back to the shops. (1:41)

Why is Recycling Important? - Aaron and his friend teach young students the basics of recycling. Students learn how plastic kills mammals and sea creatures. Did you know that if you added up all the styrofoam cups made in one day, they would circle the Earth? (6:13)

SOCIAL STUDIES - Geography

Geography Kids: Reading Maps - Navigating the World
Grades 2-6 2021 19 min Wonderscape Entertainment

Learn all about reading maps, direction and navigation. Your iPhone or Android phone has no cell service, is out of battery power or, the unthinkable, is lost! Just because your mobile device is lost doesn't mean YOU need to be as well. Understand cardinal directions, what a compass does, how to determine which way is north, and how to read old-fashioned paper maps. What function does the legend on a map serve? What are the designated colours for land and water? What are latitude and longitude? If the destination is to your left, then how do you determine which way to go in the "real" world? The answer may or may not be left! After watching this video, you will be able to get where you are going without electronic device assistance and, even with your device,

better read what it is displaying and assess whether your navigation app is guiding you to the correct address. You'll be able to take your newfound map-reading skills around your neighbourhood and around the world! Detailed graphics, diagrams and exciting video reinforce important concepts and make learning fun.

What Flowers They Bloom

Grades 9-12 2021 27 min Supre Inc.

COVID-19 was not just a viral pandemic. It was an infodemic of disinformation that turned citizen against citizen. Asian-Canadian Andy Sue, a Toronto florist, was a target of racialized scapegoating by a customer. The psychological trauma of this encounter with anti-Asian racism during the pandemic was eased when a sympathetic business neighbour took positive action. Experts discuss the implications of stigma and racism and examine the

psychological reasons that some people become ensnared by it.

SNOW

Grades 7-12 2017 10 min

Cotton Bush Productions

Award of Distinction – Canada Shorts Film Festival

Snow is an exploration of race and identity through the eyes of a young girl. A young black girl having immigrated from a hot country experiences snow for the first time. She struggles with the language and her predominantly white classmates make fun of her. To make matters worse, during recess, a boy compares the snow and the whiteness of his skin to hers and calls her "dirty". The young girl tries to rub her blackness off in the snow but this only leaves her wet, exhausted, and disillusioned - until another girl offers to teach her how to make snow angels. Showing her that, just as all snowflakes are not all alike, neither are her classmates.

Beyond the Bystander Effect

Grades 9-12 2022 9 min Shortcutstv Ltd

The bystander effect has long been used to explain the lack of 'good Samaritan behaviour' towards people who have been harmed, or are at risk of harm. This film looks at new research that takes us beyond the bystander effect and how it explains the lack of help given to James Bulger, a two-year-old who was abducted and murdered by two 10-year-old boys. It goes on to show how the psychology of bystander behaviour can help us to become more proactive witnesses.

Aesop's Fables Series

Grades K-5 2022 5-8 min each Educational Voice

Aesop's Fables is a collection of tales by the Greek storyteller Aesop. Fables are a beautiful way to teach young children about morals, life lessons, and impart the wisdom of the ages in an engaging manner. Fables are stories that have been told throughout past generations, trickling down to the present to deliver important lessons about life, nature, love, friendship, and being a good person.

Series Order #992000 \$599 (12 programs): DVD or 3 yr Streaming Rights (K-12 Single Site)

Individual titles: \$49.95 each: DVD or 3 yr Streaming Rights (K-12 Single Site)

The Donkey Laden with Salt

In this animated fable, a merchant loads his donkey with salt. At one point, the donkey falls into the river causing the salt to dissolve making his load lighter. The donkey thought this was a smart trick - keep falling in the river to lighten his load. His cleverness didn't quite pay off in the long run.

#992001

The Peacock and Queen Hella

In this animated Aesop's Fables, the Peacock looks tremendous but he would also like to sing like the Nightingale.

#992002

The Ant and the Grasshopper

One bright day in late autumn a family of Ants were bustling about in the warm sunshine, drying out the grain they had stored up during the summer, when a starving Grasshopper, his fiddle under his arm, came up and humbly begged for a bite to eat.

#992003

The Cat and the Hens

The Cat hears that the Hen is unwell and decides to pay her a visit. She asks the Hen if there is anything she can do to help but is she really trying to help?

#992004

The Crow and the Pitcher

In a spell of dry weather, a thirsty Crow found a pitcher with a little water in it. But the pitcher was high and had a narrow neck, and no matter how he tried, the Crow could not reach the water. Picking up some small pebbles, he dropped them into the pitcher one by one. With each pebble the water rose a little higher until at last it was near enough so he could drink.

#992005

The Dog and the Meat

A dog found a piece of meat one day and while walking with it in his mouth near a stream, he saw another dog in the water with another piece of meat. He was not aware that it was his own reflection so he tried to grab it. However at that moment, his meat fell into the water and it was carried downstream out of sight. So, he remained hungry that day, because of his greed.

#992006

The Farmer and the Snake

Farmer walked through his field one cold winter morning. On the ground lay a Snake, stiff and frozen with the cold. The Farmer knew how deadly the Snake could be, and yet he picked it up and put it in his bosom to warm it back to life.

#992007

The Fox and the Crow

In this fable, a crow has found a piece of cheese and sits on a branch to eat it. A fox, wanting it for himself, flatters the crow, calling it beautiful and wondering whether its voice is as sweet to match. When the crow sings for the fox, the cheese falls to the floor and the fox eats it.

#992008

The Golden Axe and Silver Axe

In this animated fable, the water spirit is very impressed with the woodcutter's honesty so he gives him his iron axe and also another two axes as a reward for his honesty.

#992009

The Horns and Legs of the Deer

The Deer admires his powerful antlers in his reflection in a stream but he does not like his slim legs. Which do you think is more useful to him?

#992010

The Peacock and the Crane

The Peacock makes fun of the Crane's feathers, but should the Peacock be so proud of his?

#992011

The River and the Pond

In this animated fable, there once was a beautiful flowing river that gurgled everyday. The nearby pond watched and he couldn't figure out why the river was so happy.

#992012

How Do Dinosaurs Say Goodbye?

Grades JK-2 2022 9 min Weston Woods
Written by Jane Yolen, illustrated by Mark Teague

When they have to part from a loved one, they might cry, or hide in their bedrooms, or even write "DON'T GO!" on the wall. But with a little courage, they can face their fears. They can tell grown-ups how they're feeling and know that time apart

can still be filled with love. This humorous and heartfelt story will teach youngsters how to say goodbye with poise and grace.

Watercress

Grades JK-5 2022 9 min Weston Woods

Written by Andrea Wang and illustrated by Jason Chin

Driving through Ohio in an old Pontiac, a young girl's parents stop suddenly

when they spot something growing in a ditch by the side of the road...watercress! With an old paper bag and some rusty scissors, the whole family wades into the muck to collect as much of the muddy, snail-covered plant as they can.

At first, it's embarrassing. Why can't her family get food at the grocery store? But when her mother shares the story of her family's life in China, the girl learns to appreciate the fresh food they foraged. Together, they make a new memory of watercress in this tender story inspired by the author's childhood memories.

Dust & Bones

Grades 9-12 2018 52 & 70 min versions Less Bland Productions

Framed around the pending transfer from the Royal BC Museum back to their indigenous community, *Dust & Bones* takes us through the discovery, preservation and re-dedication of human remains and artifacts, and with them, a reclamation of First Nations culture and history.

The main thread of *Dust & Bones* is the day-to-day (and overnight) work of Harold Joe, a revered cultural worker, archaeological monitor and filmmaker who has been challenging appropriation by museums, universities and private collectors for over 40 years. Transferring the remains and artifacts held at museums such as RBCM to traditional territories for proper burials is one of many larger-scale 'take back the bones' initiatives of First Nations communities around the world.

Beyond Human Power

Grades 9-12 2019 43:55 min Wolf Spirit Films Inc.

Canada once jailed indigenous peoples for dancing, but today new generations are finding inner balance through their dance cultures. In this visually stunning documentary, an indigenous man chronicles the oppressive Potlatch Law of 1885 to 1951, and travels throughout BC and the Yukon to find out why Indigenous people are taking their ceremonies out of the darkness. Meet inspiring people from Vancouver to Alert Bay and from Terrace to the Yukon whose lives are rooted in their culture, and whose call to dance is beyond human power.

Producer Gordon Loverin is an experienced storyteller from the Tlingit and Tahltan Nations in northwestern British Columbia.

Monkey Beach

Grades 9-12 2020 104:37 min Animiki See Distribution Inc.

In bringing **Eden Robinson's** beloved novel to the screen, Loretta Sarah Todd offers us a modern epic. *Monkey Beach* is a testament to Indigenous women's ability to not just endure trials but emerge from them empowered. Waking up in her East Vancouver apartment, Lisa (Grace Dove) is contacted by her cousin's ghost (Sera-Lys McArthur). Returning to her Haisla kin in Kitimaat Village, BC, she works to save her brother, Jimmy, (Joel Oulette) who mysteriously vanishes at sea, while she contends with mystical creatures lurking in the nearby woods. This captivating allegory touches upon the challenge of coexisting with the ghosts that haunt us and spirits who might enlighten us.

Please be advised that some of the language used in this film may be offensive to some viewers.

#ASO648 \$129: DVD or 3 year Streaming Rights (K-12 Single Site)

Lana Gets Her Talk

Grades 9-12 2017 37 min Beth Wishart MacKenzie

A cinematic observation of Indigenous artist Lana Whiskeyjack as she works to complete a mixed-media sculpture of a tortured face, the face of her uncle. Lana calls the piece "Losing My Talk". This brief study of an artist and her work helps us come to some understanding of the trauma experienced by Canada's Indigenous people in the Indian residential school system, of its enduring effects on the children of survivors of the IRS, and of one woman's journey to recover what was lost: dignity, identity, and voice.

PREMIER CONTACT

Grades 9-12 2022 3 episodes x 45 min ea Nish Media

Premier contact est une série documentaire (3 x 45 min) qui permettra à six Québécois de vivre une immersion totale en milieu autochtone pendant 18 jours. Les participants, qui n'ont aucune idée de la réalité autochtone, seront invités à sortir de leur vie quotidienne pour découvrir les communautés autochtones du Québec. Cette aventure unique les emmènera, entre autres, chez les Anishinaabe de l'Abitibi et de la Haute-Gatineau, à la rencontre de la population Autochtone urbaine de la région de Montréal, chez les Attikamek et finalement sur le territoire des Hurons-Wendats. Le voyage mettra aussi à l'épreuve leurs opinions et remettra en question leurs préjugés au sujet d'un peuple qu'ils ne connaissent que très peu et ce, malgré sa proximité.

Order #310072FR \$289: DVD (3 episodes on 3 DVDs) or 3 year Streaming Rights (K-12 Single Site)

Résumé épisode 1

Nos six participants prennent la route. Ils débutent leur parcours à Pikogan où ils sont accueillis par Samian. Ils y découvrent la réalité des Anishinaabe au Québec et de leur relation avec les Allochtones. Ils s'arrêtent aussi sur l'ancien site du pensionnat St. Marc de Figueray pour tenter de comprendre comment et pourquoi les impacts des pensionnats sont toujours d'actualité. Leur parcours les amènera enfin au cœur de Lac Simon et de Kitsisakik où ils pourront voir les impacts de la modernité sur la vie traditionnelle.

Résumé épisode 2

Dans ce deuxième épisode, le groupe se rend à Kitigan-Zibi où les participants rencontrent le Grand Chef John Boudrias qui leur parle des Nations Algonquines et de leur évolution sur ce territoire.

Les participants discutent avec Laurie Odjick, la mère d'une jeune Autochtone disparue il y a plusieurs années. Leur chemin se poursuit ensuite vers Montréal, où le groupe fait la connaissance du "Wolf Pack Street Team" un groupe qui patrouille les rues de Montréal dans le but d'offrir un peu de soutien aux Autochtones vivant dans les rues.

Enfin, le groupe est invité chez l'aînée Dominique Rankin pour comprendre un peu la spiritualité Autochtone et où, ensemble, ils participeront à une tente de sudation.

Résumé épisode 3

Pour l'étape finale du parcours, les participants se rendent à Wemotaci pour participer à un Pow-wow et comprendre cette célébration. Ils auront la chance de rencontrer Jessica Vollant, une traditionaliste, qui continue de promouvoir sa culture non seulement au sein de sa famille mais aussi dans la communauté. Par la suite, le Grand Chef Ghislain Picard, les accueillera à bras ouvert pour leur expliquer l'importance de cohabitation entre nations.

La série se termine par un cercle de partage, où chaque membre du groupe témoigne de son expérience et explique comment celle-ci a changé ses perceptions.

Tzouhalem

Grades 9-12 2021 52 & 92 min versions Less Bland Productions

Tzouhalem, Chief of the Cowichan First Nation during the mid-1800's, is arguably one of the most fascinating and polarizing figures in Canadian history. His story is a matter of historic record yet is the subject of legend. There is a mountain, road, and other landmarks on Cowichan territory named after him.

This documentary, through interviews and creative re-enactments, examines the near-mythic figure of Cowichan Chief Tzouhalem, the account of his life from both historians and First Nations Elders, the folkloric tales concerning him, his impact on the modern relationship between the Crown and First Nations, and how his legend remains alive to this day, examining critically how his story has been told and passed down to us.

Puglaas: Jody Wilson-Raybould Rethinks Her Future: W5

Grades 9-12 2021 22 min CTV

W5's Sandie Rinaldo gives us a glimpse into the private life of Jody Wilson-Raybould, a trailblazer as Canada's first Indigenous Justice Minister. She lost her position at the height of the SNC Lavalin corruption scandal when she refused to bow to political pressure; she could not stay silent and was ejected from the Liberal party. Her identity is rooted deep in the culture of the Quadra Island Cape Mudge We Wai Kai First Nation. At a traditional potlatch ceremony in 1976 her grandmother gave her the name Puglaas, meaning "woman born to noble people".

#CTV883 \$129.95: DVD or 3 year Streaming Rights (Single K-12 Site)

Mary May Simon: Canada's First Indigenous Governor General

Grades 9-12 2022 11 min CTV

CTV's Annie Bergeron Oliver interviews Canada's Governor General Mary May Simon at the 73rd Frankfurt Book Fair where Canada was the Guest of Honour. May Simon says the path forward to reconciliation involves difficult but crucial conversations. "I think that role is very important because without that understanding, without the work that is necessary, reconciliation is going to be a very slow process. It's a lifelong process, but we somehow have to speed it up a bit without being disrespectful to those that have been done harm to," she said.

Grades 9 - 12 2018 13 x 30 min episodes Mushkeg Media Inc.

Mohawk Ironworkers is a 13-part half hour documentary series that celebrates the steely determination of the Mohawk ironworkers of Kahnawake, Akwesasne and Six Nation said to be “The best ironworkers on the planet”. Using a mixture of dramatic HD “high steel” footage, on the job and home-life reality shooting and archival material, each half hour episode will present a fascinating visual and moving story of the Ironworkers and their families – as they face the reality of one of the most dangerous jobs on the planet.

Series Order #MUME10 (13 x 30 min episodes) - \$1,677: DVD or 3 year Streaming Rights (Single K-12 Site)

Also available in FRENCH - Les Mohawks: Bâtisseurs de légendes

Also available in MOHAWK - Kanien'kehá:ka: Ratirihsta'kehró:non

The World Trade Center and 9/11 (Ep 1)

Mohawks helped build the iconic Twin Towers in NYC. Peter J. Stacey, Randy Horne and Bill Sears reflect back on their life-changing work on the Towers, and the devastation of 9/11.
#MUME11 \$129: DVD or 3 yr Streaming Rights (Single Site)

Aftermath (Ep 2)

When the NYC Twin Towers were destroyed on 9/11, Mohawk ironworkers helped clear the wreckage of the iconic Towers but no one was prepared for the health risks of the site cleanup.
#MUME12 \$129: DVD or 3 yr Streaming Rights (Single Site)

The Ultimate Ironworker (Ep 3)

The Akwesasne Ironworkers Festival is a chance for ironworkers across North America to showcase their skills.
#MUME13 \$129: DVD or 3 yr Streaming Rights (Single Site)

Training for Steel (Ep 4)

Legend has it that ironwork is in the blood of Mohawks. Today, aspiring ironworkers must go off to school and get certified through a rigorous training process.
#MUME14 \$129: DVD or 3 yr Streaming Rights (Single Site)

Albert Stalk - Living Legend (Ep 5)

Kahnawake's own Albert Stalk began as most ironworkers do, by picking up the trade from his father, but he would soon become world renowned for his daring feats.
#MUME15 \$129: DVD or 3 yr Streaming Rights (Single Site)

Booming Out to NYC (Ep 6)

New York City became the most popular area to “boom out” for Mohawk Ironworkers in the 1920s, where they helped build the skyline and some of the most famous structures in history.
#MUME16 \$129: DVD or 3 yr Streaming Rights (Single Site)

The Hill Brothers - Keeping it in the Family (Ep 7)

The Hill Brothers have over 80 years of ironworking experience between them. Family is key in the ironwork business.
#MUME17 \$129: DVD or 3 yr Streaming Rights (Single Site)

A Bridge to Remember (Ep 8)

The Seaway International Bridge, a US-Canada border crossing connecting Akwesasne to Cornwall was maintained by Mohawks, and was dismantled by Mohawks.
#MUME18 \$129: DVD or 3 yr Streaming Rights (Single Site)

Health, Home and Heritage (Ep 9)

Ironwork is one of the most dangerous and physically demanding jobs in the world, so the health and safety of the workers are paramount to the job's success.
#MUME19 \$129: DVD or 3 yr Streaming Rights (Single Site)

The Skywalker's of Six Nations (Ep 10)

Six Nations of the Grand River is the largest First Nations reserve in Canada, so it is home to a lot of ironworkers, and ironworking lore. Historian Rick Hill recounts the history of Mohawk ironworkers, from the construction of longhouses, to the “boom out” to New York City.
#MUME20 \$129: DVD or 3 yr Streaming Rights (Single Site)

Booming Out West (Ep 11)

A team of Mohawks booms out thousands of miles away from home, to a Saskatchewan potash mine where they construct rigs rivaling the size of major skyscrapers.
#MUME21 \$129: DVD or 3 yr Streaming Rights (Single Site)

John Squires - Making a Connection (Ep 12)

John Squires has been in the business for over 40 years as a connector, and there are no signs of stopping him any time soon.
#MUME22 \$129: DVD or 3 yr Streaming Rights (Single Site)

Women of Steel (Ep 13)

Female Mohawk ironworkers are shattering stereotypes that the trade is solely a “man's job.” Tiffany Johnson is ready to prove she isn't afraid of heights or some heavy lifting on her first day of the Akwesasne apprenticeship-training program.
#MUME23 \$129: DVD or 3 yr Streaming Rights (Single Site)

Guides d'aventures

Grades 9-12 2016-2021 40 épisodes x 60 min HG Distribution

La série suit des guides canadiens francophones ou francophiles qui ont choisi de vivre et de partager leur passion des grands espaces et de l'aventure ailleurs qu'au pays, et qui parcourent le globe dans le but de se dépasser.

Les épisodes incluent:

HG0154FR	FRANÇOIS-XAVIER GAGNON – VÉLO DE MONTAGNE AU CANADA
HG0155FR	KARINE GENEST – OBSERVATIONS D'OURS POLAIRES AU MANITOBA
HG0156FR	BENOÎT HAVARD - VOILE SUR GLACE AU NUNAVUT

Don't miss these NEW Canadian productions:

Woodwriter: The Art of George A. Walker

Grades 9-12 2022 69 min The Order of Nervous Chickens

"The delicacy and intelligence of George Walker's print-making seems to have come to us from a bygone age. Fortunately, we have George with us now." – Author Neil Gaiman

Wood engraver, book artist, master printer and time traveler — *George A. Walker* has created a distinct world of books, imagery and ideas. His latest inspiration is the silent screen star Mary Pickford, whose life he explores in his final wordless biography. *Woodwriter* follows the journey from a blank maple wood block to a sculptural hand-made book, and visits with other Canadian icons like Leonard Cohen and Conrad Black along the way. This delightful film about art and its makers, peppered with Canadian culture, shows the past and present never stop talking to each other – even if it's without words.

#TONC00 \$159: DVD or 3 year Streaming Rights (K-12 Single Site)

My Name is WOLASTOQ

Grades 9-12 2022 44 min Ninen Productions Inc.

A candid and powerful window into the movement to preserve and celebrate Wolastoqui culture and identity. The film follows a young Wolastoqew man, Riley Gaffney, who undertakes a journey to explore and claim his Indigenous cultural identity, while also following the efforts of Wolastoqi elders who work to create awareness and momentum for efforts to reclaim the original Indigenous name of

the Wolastoq (Saint John) River.

Subjects appearing in the film include Riley Gaffney, Regional Chief Ron Trembley, Chief Alan Polchies, Chief Patricia Bernard, Cecelia Brooks, Anthony Brooks, Shane Perley-Dutcher, Dr. David Perley, Opolahsomuwehs (Imelda Perley), Charlie Gaffney, Cynthia Gaffney, and The Muskrat Singers.
