Grades JK-3 2019 CC 15 min Weston Woods  
Written by Margot Lee Shetterly with Winifred Conkling  
Illustrated by Laura Freeman  
Narrated by Octavia Spencer. Music by Michael Bacon.

Based on the New York Times bestselling book and the Academy Award-nominated movie, here is the incredibly inspiring true story of four black women who helped NASA launch men into space to picture book readers! Dorothy Vaughan, Mary Jackson, Katherine Johnson, and Christine Darden were good at math... really good. They participated in some of NASA's greatest successes, like providing the

calculations for America's first journeys into space. And they did so during a time when being black and a woman limited what they could do. But they worked hard. They persisted. And they used their genius minds to change the world. This is the story of four female African American mathematicians at NASA, known as "computers," and how they overcame gender and racial barriers to succeed in a highly challenging STEM-based career.
