# OUR COMPLETE COLLECTION OF TITLES IN ENGLISH

# HISTORY

## The French Revolution

In this film, we travel back in time to late 18th century France and follow the development of the French Revolution. What were the underlying causes for the revolution? What was the Reign of Terror? Who was Maximilien de Robespierre? Lastly, we take a look at the aftermath of the French Revolution, which is still reflected today, and find out why this dramatic period was so important in history.

**Length:** 18 minutes  
**Age group:** From 13 years old  
**Produced:** 2017  
**Subject:** History  
**Price:** \$129.95: DVD or 3 year Streaming  
**FREE access with your CAN-CORE or ON-CORE subscription**

## The Russian Revolution

At the end of the 19th century and the beginning of the 20th, many Russians were dissatisfied with their lot in life. In 1914, World War I broke out and Russia was pulled into the war – despite the people's protests. All this led to a revolution, a coup d'état and a civil war. We will learn about Lenin, the Bolsheviks, communism, the notorious Rasputin, rumors of cannibalism, and acute poverty.

**Length:** 18 minutes  
**Age group:** From 13 years old  
**Produced:** 2017  
**Subject:** History  
**Price:** \$129.95: DVD or 3 year Streaming  
**FREE access with your CAN-CORE or ON-CORE subscription**

## The American Revolution – the War of Independence

In the mid-18th century, Great Britain had formed thirteen colonies on the North American east coast. This would soon be where a revolution took place, where colonies would fight against their motherland, Great Britain.

**Length:** 20 minutes  
**Age group:** From 13 years old  
**Produced:** 2019  
**Subject:** History  
**Price:** \$129.95: DVD or 3 year Streaming  
**FREE access with your CAN-CORE or ON-CORE subscription**

# HISTORY

## River Valley Civilizations

For thousands of years mankind lived as hunters and gatherers, following the crops and the animals. But something happened that made us go from a simple nomadic lifestyle to create civilizations that through farming and domesticating of animals began to build villages. In this film we will explore the importance of water in the transition from simple villages, to flourished kingdoms, to the construction of the Great

Wall of China. We take a closer look at Mesopotamia, Ancient Egypt, Indus Valley and China, and learn how they developed river valley civilizations.

**Length:** 17 minutes

**Age group:** From 9 years old

**Produced:** 2017

**Subject:** Social Studies, History

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

# ANIMALS AROUND THE WORLD

## Animals in Africa

In this film, we learn where Africa is and what kinds of animals live there. We take a closer look at many different kinds of animals and learn about their characteristics and how they are grouped. We meet the gecko lizard that cannot blink but has to lick itself in the eyes! We learn about wildebeests, baboons, giraffes, and elephants. Who are "The Big Five"? What does a secretary bird look like? How

high can a secretary bird get? We learn all this in the film about animals in Africa!

**Length:** 15 minutes

**Age group:** From 8 years old

**Produced:** 2017

**Subject:** Biology, Geography

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Animals in North America

In this program we learn about where North America is located and what kinds of animals live there. We will take an in-depth look at different animals and learn about their characteristics and about how they are grouped.

We will meet the grizzly bear, the rattlesnake and the bald eagle. We will also learn about the black widow spider. How high can the cou-

gar jump? And why is it that flamingos are pink? All this and more can be found in the film about the animals of North America!

**Length:** 14 minutes

**Age group:** From 8 years old

**Produced:** 2017

**Subject:** Biology, Geography

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

# RELIGION

## The Five World Religions – an Overview

By studying examples from the whole world, we will learn what religion is, and what function it has.

We will investigate how religions express and carry the cultures that they are part of.

We will take a look at rituals, religious festivals, holy places and symbols. And we will ask ourselves:

Why do we have religions?

**Length:** 17 minutes

**Age group:** From 11 years old

**Produced:** 2019

**Subject:** Religion

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Bible Stories: The Creation

The Christian story of creation can be found in the Bible. In this animated film we see God create the sky, the seas, and a verdant planet full of creatures. God creates two humans, Adam and Eve, who live in the Garden of Eden. We follow Adam and Eve in their time in Paradise, until they eat of the forbidden fruit and are no longer allowed to stay there...

**Length:** 10 minutes

**Age group:** From 6 years old

**Produced:** 2017

**Subject:** Religion

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Bible Stories: Noah's Ark

In this film we learn the story of Noah's ark - about the time after the Garden of Eden, why God decides to destroy all of humanity and why Noah and his family build a humongous ark! What will happen to Noah, his family and all the animals on the ark?

**Length:** 8 minutes

**Age group:** From 6 years old

**Produced:** 2017

**Subject:** Religion

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

# RELIGION

## Bible Stories: Moses – Egypt and the Ten Plagues

In this animated film we will learn the story of Moses. How Moses grew up in Egypt and then received a mission from God – to free all the enslaved Israelites who lived in the country. An exciting story where we will see, among other things, how ten plagues descend on Egypt. What will happen, will Moses free the Israelites?

**Length:** 9 minutes

**Age group:** From 6 years old

**Produced:** 2019

**Subject:** Religion

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Bible Stories: Moses – The Exodus from Egypt and the Ten Commandments

The Israelites had, with Moses' help, managed to free themselves of Egypt and the Pharaoh. God would now lead them towards Canaan – the promised land! We will follow the exciting story of when God parted the sea so that Moses and the Israelites could escape the Egyptians to the mountain of Sinai. We will also learn about how Moses went up on the mountain

and received the Ten Commandments from God.

**Length:** 9 minutes

**Age group:** From 6 years old

**Produced:** 2019

**Subject:** Religion

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Bible Stories: The Life of Jesus

In this episode, we will learn about the life of Jesus. We will learn about the birth of Jesus in Bethlehem, and how he grew up to be a wise and loved man. We will then follow Jesus on his walks and sermons together with his disciples. Lastly, we will see how Jesus was betrayed, captured and crucified. And how he was raised from the dead...

**Length:** 11 minutes

**Age group:** From 6 years old

**Produced:** 2019

**Subject:** Religion

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

# LITERACY

## Storyteller: Astrid Lindgren

We will learn about the author Astrid Lindgren, who created the stories of Pippi Longstocking, The Children of Noisy Village, and many more!

Astrid Anna Emilia Ericsson was born on the 14th of November 1907. She grew up in a farm in Sweden, together with her mother, father and her three siblings. How did Astrid Ericsson become Astrid Lindgren, a world-renowned children's book

author? How did the story of Pippi Longstocking come about? In this film we will learn more about Astrid's life. And we will hear excerpts from some of her stories!

**Length:** 12 minutes

**Age group:** From 12 years old

**Produced:** 2019

**Subject:** English

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

# SCIENCE

## Big Bang – the Theory and the Origin of the Universe

The majority of today's astronomers and scientists support the theory we call the Big Bang. But what does the theory actually entail? How did it develop? Who was Edwin Hubble and what are spectral lines?

In this film, we explore the background of the Big Bang theory. Was it really a bang? What different substances and particles were formed right after the Big Bang? We will explore these things. We will also find out how nebulae, stars,

planets and solar systems were created. And finally, we will learn what evidence exists that supports this theory. What evidence is there that the Big Bang theory could be true?

**Length:** 14 minutes

**Age group:** From 12 years old

**Produced:** 2019

**Subject:** Science

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Technological Solutions: Simple Machines

Have you ever used a screw? Pulled something up a ramp? Or used a bottle opener? In physics and technology, we call these "simple machines." But what are they, and how do they work?

In this video we go through the six simple machines: The lever, the inclined plane, the wedge, the screw, the wheel and the pulley.

We learn about the forces behind these simple machines and see clear examples of how these technical solutions help us with all sorts of things.

**Length:** 14 minutes

**Age group:** From 7 years old

**Produced:** 2022

**Subject:** Science

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Let's Learn About: Bridges

We need bridges to make it easier to get places. But how does a bridge really work?

This video shows different bridge structures. We look at what types of bridges there are and the difference between a bridge and a viaduct.

We learn many terms, such as abutting face, bridge deck and span. We'll see examples of what happens when a bridge isn't

designed correctly, and some special bridges around the world.

**Length:** 13 minutes

**Age group:** From 8 years old

**Produced:** 2022

**Subject:** Science

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

# DEVELOPMENT OF LIFE

## Development of Life: Early Life

What were the first living organisms on Earth? How did they work? In this episode, we travel millions – even billions – of years backwards in time in order to learn how Earth was created.

We study the significance of the nebular hypothesis and how Earth has changed since its inception. We also discuss concepts such as stromatolites, organelles, and eukaryotes.

What were the first life forms on our planet and how did multicellular organisms develop? We will learn all these things in the first part of Development of Life.

**Length:** 16 minutes

**Age group:** From 12 years old

**Produced:** 2019

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Development of Life: Life Through the Ages

In this episode we will learn about the geological time scale – what was the climate like a billion years ago and what living organisms existed on Earth at that time? Why did the dinosaurs actually die out? We discuss concepts such as Precambrian, Paleozoic, and Mesozoic, and learn what an Archaeopteryx is. We will explore all these things in the second part.

**Length:** 16 minutes

**Age group:** From 12 years old

**Produced:** 2019

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Development of Life: Evolution and Darwin

In this episode we take a closer look at Charles Darwin – who was he and why is he important to our understanding about the development of life? We explore what evolution is and the meaning of natural selection. Why are concepts such as population, competition, and adaptation important to the development and survival of living organisms? We will learn all this in the third and final part of Development of Life.

**Length:** 16 minutes

**Age group:** From 12 years old

**Produced:** 2019

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

# BIOMES

## Forests

In this video, we learn about forests, one of the world's biggest biomes. The forest is in many ways a key resource, above all for the climate, but also for the economy.

We'll take a closer look at the types of forest that exist and what plants and animals we find there.

Why do leaves change color in the fall? We'll learn that too.

**Length:** 14 minutes

**Age group:** From 10 years old

**Produced:** 2020

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Deserts

When we think of the desert, perhaps we mostly think of large expanses of sand dunes. But only a tiny part of the Earth's deserts are like that.

We learn the difference between the two main types of deserts - dry deserts and polar deserts. We

also learn where on Earth deserts form. We go through terms like tropic, zenith and rain shadow.

**Length:** 11 minutes

**Age group:** From 10 years old

**Produced:** 2021

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Oceans

Our oceans - what are they? What does overfishing do? How does photosynthesis work at sea? What could a marginal sea be?

We'll also be taking a look at marine plants and animals. And we'll explore some of the challenges and problems our oceans face,

and what we can do to make a difference.

**Length:** 12 minutes

**Age group:** From 10 years old

**Produced:** 2021

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Freshwater

We take a look at what makes freshwater so important and find out which plants and animals live in a freshwater habitat. We'll also explore some of the challenges and problems the world faces - like pollution and water shortages - and what we can do to make a difference.

What is eutrophication and what is a wetland? We'll tell you all about it in this video about freshwater!

**Length:** 12 minutes

**Age group:** From 10 years old

**Produced:** 2021

**Subject:** Biology

**Language:** English

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

# BIOLOGY

## Puberty

The human body grows and changes during our whole life, but at a certain age a lot of things happen in only a few years. This period is called puberty.

In this humorous, animated film we will learn more about what happens when you hit puberty.

**Length:** 14 minutes

**Age group:** From 10 years old

**Produced:** 2019

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Menstrual Problems

Every day, around 800 million girls and women have their period. And yet so many people are still judgmental about menstruation. This is a short clip about menstruation and menstrual problems. What is PMS and what is Endometriosis? Why are some people ashamed of having their period? We will learn this and more, in this animated short clip.

**Length:** 4 minutes

**Age group:** From 10 years old

**Produced:** 2019

**Subject:** Biology

**FREE access with your CAN-CORE or ON-CORE subscription**

## Where Do Babies Come From?

Where does a baby come from? How did it get into its mother's belly, how can it eat there, and how does it get out of the belly? We learn that everything starts with an egg and a sperm, and that we have all eaten through the navel! This is an animated film for young children.

**Length:** 10 minutes

**Age group:** From 8 years old

**Produced:** 2017

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

# BIOLOGY

## Taxonomy – The Classification of Living Things

There are many species of animals, plants and fungi in the world. But where do these classifications come from? That's what we're going to learn in this video!

We'll learn the background of modern taxonomy and how Carl Linnaeus influenced it. We go through terms like species, genus, pathogens and cryptogams. We also learn what domains are and why all organisms have a Latin

name.

**Length:** 15 minutes

**Age group:** From 11 years old

**Produced:** 2021

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Genetics – How Traits are Inherited

Why do you have brown eyes like your dad and not blue eyes like your mom? In this video, we learn how traits are inherited. This is called genetics!

Experimenting with pea plants in the late 19th century, Gregor Mendel laid the foundation of modern genetic science. In this video, we learn about Punnett squares and how our genes are put together. We go through terms like zygote, cell division, chromosome,

cross-breeding and clones. We investigate the difference between dominant and recessive traits, and what determines whether a gamete develops into a girl or boy!

**Length:** 16 minutes

**Age group:** From 13 years old

**Produced:** 2022

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Pandemics

The word *pandemic* comes from Greek and means "pertaining to all people". At the end of 2019, the infectious disease covid-19 was discovered. It then spread all over the world, which had enormous consequences for millions of people. In this educational clip, we go through what characterizes a pandemic. You will learn about known pandemics such as the Great Death, the Spanish flu, the Asian, the Hong Kong flu and

the Swine flu. You will also learn concepts such as infodemias, as well as the importance of credible sources in times when false rumors spread quickly.

**Length:** 5 minutes

**Age group:** From 12 years old

**Produced:** 2020

**Subject:** Biology

**Language:** English

**Price:** \$129.95: DVD or 3 year Streaming

# THE HUMAN BODY

## The Human Body

### The Cardiovascular System

## The Cardiovascular System

The cardiovascular - or circulatory - system is our body's transportation system. It consists of a pump, the heart, and an enormous network of pathways, the blood vessels.

But how does blood circulate through our bodies? And what other parts of the body are involved in the cardiovascular system? In this film, we're going to explore the cardiovascular system.

**Length:** 14 minutes

**Age group:** From 10 years old

**Produced:** 2020

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## The Human Body

### Bones and Muscles

## Skeleton and Muscle

They hold us up and help us move our bodies. This video explores our bones and muscles!

We look at the different kinds of bones: long bones, flat bones and irregular bones. We also learn terms like smooth muscle, saddle joint and periosteum.

Finally, we'll talk about how to keep our bones and muscles healthy.

**Length:** 11 minutes

**Age group:** From 10 years old

**Produced:** 2020

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## The Human Body

### Breathing and Your Lungs

## Breathing and Your Lungs

When we breathe, our bodies exchange gases with the environment in a process called breathing - or respiration.

But why do we have to breathe? What organs do we use when we breathe? In this video, we explore breathing and our lungs. We also learn terms like alveoli, bronchi and diaphragm. Finally, we'll talk about how to keep our respiratory system healthy.

**Length:** 14 minutes

**Age group:** From 10 years old

**Produced:** 2020

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

# THE HUMAN BODY

## The Human Body

### The Immune System

## The Immune System

Whenever you catch a cold, cut a finger or skin a knee, your immune system gets to work. But how does this system actually work? And what organs are involved?

This video will teach us about the human immune system and how it keeps us healthy.

**Length:** 15 minutes

**Age group:** From 10 years old

**Produced:** 2022

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## The Human Body

### The Body's Filter Systems

– the Kidneys and Liver

## The Body's Filter Systems – the Kidneys and Liver

One of the most important features of the body is that it eliminates things it doesn't need, can't use or that can harm the body.

The body has its own filter systems for this, consisting mainly of the kidneys and liver. In this film, we learn about the important work they do. We go through terms like renal capsule, nephron and dialysis.

How is blood filtered? And why do we need to urinate? That's what we're going to look into in this film.

**Length:** 13 minutes

**Age group:** From 10 years old

**Produced:** 2022

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## The Human Body

### The Skin

## The Skin

The skin is the largest organ of the body. It protects us in many different ways. In this video, we will get to know all about skin.

We'll explore its structure, how it functions, and how it helps us regulate body temperature. And why do we get goosebumps? Why is sweat smelly? We'll find out in this video!

**Length:** 14 minutes

**Age group:** From 10 years old

**Produced:** 2022

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

# THE HUMAN BODY

## The Human Body

### the Digestive System

## The Digestive System

The digestive system is very important. It allows our body to break down what we eat in order to absorb and use the nutrients we need to thrive. This film teaches us which organs are involved in the digestive system. We follow the winding road our food takes from the mouth to the rectum, and explore concepts like the esophagus, sphincter muscles, and chemical breakdown.

How long does it take for food to

reach the stomach? What do the intestinal villi do? And what kind of digestive issues may arise? Let's find out!

**Length:** 15 minutes

**Age group:** From 10 years old

**Produced:** 2024

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## The Human Body

### The Nervous System

## The Nervous System

In this film we look at the nervous system. The brain decides almost everything that happens in your body. It receives messages from the outside world and it also gets signals from the body's internal organs.

We learn about the cerebrum, the diencephalon, the cerebellum, and the brainstem and what they do. We take a closer look at how nerves and nerve cells look and examine the central and peripheral nervous

systems. The film shows their properties and functions, with a focus on the key role they play in the complex human nervous system.

**Length:** 14 minutes

**Age group:** From 10 years old

**Produced:** 2024

**Subject:** Biology

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

# GEOGRAPHY

## The World Population

In this film we will learn about the world population; where we live, how we live and what we think the future will look like. We will take a look at demographic trends and why they look the way they do. What do we mean by concepts like *population pyramid*, *population growth*, *urbanization* and *migration*? We will find out!

**Length:** 17 minutes

**Age group:** From 12 years old

**Produced:** 2019

**Subject:** Geography, Social Studies

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## If There Were 100 People on Earth

There are eight billion people in the world, and one of them is you! But what if there were only 100 people, what would life on Earth look like? Let's create a micro-world of our own, populated by only 100 people and find out.

How many people would be from Asia? How many from North America? Would everyone in our micro-world have somewhere to

live? Resources like money, how would it be distributed?

In this film, we will use simple statistics to describe our world.

**Length:** 12 minutes

**Age group:** From 10 years old

**Produced:** 2020

**Subject:** Geography, Social Studies

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Continents – an Overview

If we take a look at our planet, it is divided into seven continents: Europe, Africa, Asia, Oceania, North America, South America and Antarctica. In this film, we will travel around the world to get an overview, and learn a little about each continent.

**Length:** 15 minutes

**Age group:** From 7 years old

**Produced:** 2017

**Subject:** Geography

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

# GEOGRAPHY

## Europe – an Overview

This film provides an overview of Europe. We begin with a look at the continent's geography and climate, showing how Europe is like a giant peninsula reaching out into the Atlantic Ocean, and that its climate is affected by bodies of water.

Next, we examine the history of Europe, its population, and natural

resources. And we round off with a tour of Europe, with a brief presentation of each region where we also visit one country.

**Length:** 17 minutes

**Age group:** From 10 years old

**Produced:** 2022

**Subject:** Geography

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or**

## Countries in Europe: Spain

Spain has approximately 47 million inhabitants. It is one of Europe's largest countries. In this film, we will meet street musicians, visit architect Gaudi's great cathedral La Sagrada Familia in Barcelona, watch flamenco dancing, and learn about Spain's history.

**Length:** 14 minutes

**Age group:** From 12 years old

**Produced:** 2014

**Subject:** Geography

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Australia

Australia is the world's smallest continent, and at the same time one of the biggest countries.

In this video, we learn about the country of Australia. We'll go through its interesting history, the climate, and the plants and animals in Australia.

Finally, we look at some of Australia's famous landmarks.

**Length:** 14 minutes

**Age group:** From 10 years old

**Produced:** 2020

**Subject:** Geography

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

# GEOGRAPHY

## Earth's Surface: Minerals

Geology is the study of the Earth and its surface. In this video, we learn about minerals - an important building block of our planet. They are found in rock, in the Earth's crust and in the soil. And many key elements are minerals, such as coal. This video investigates what minerals are, how they are formed and how they are classified.

We learn about the crystalline forms of minerals and terms such as streak and silicate minerals.

**Length:** 12 minutes

**Age group:** From 9 years old

**Produced:** 2021

**Subject:** Geography

**Price:** \$129.95: DVD or 3 year Streaming

**FREE access with your CAN-CORE or ON-CORE subscription**

## Earth's Surface: Rock

What is rock? Where did it come from? This video will show us.

know all about the Rock Cycle.

We'll be finding out about the three main groups of rock – igneous, sedimentary, and metamorphic – how they are formed and what characteristics they have.

**Length:** 14 minutes

**Age group:** From 9 years old

**Produced:** 2022

# GEOGRAPHY

## Places in the World: The Middle East

We are now going to visit the Middle East region. We will learn about its nature, climate, history, population, and resources. Then we will take a tour of the Middle East and visit some exciting geographical locations, such as Cairo, the Dead Sea, and the region's highest mountain!

We will look into conflicts that have affected the region, how climate change affects the Middle East and what's so special about

the lost city of Petra. Did you know that many children in Egypt go to school in shifts? We'll learn about this and much more in this film.

# SOCIAL STUDIES

## Rich and Poor Countries

– about prosperity and poverty around the world

Our world can seem unfair, since opportunities depend on which country a person lives in. Why is that? How can we determine if a country is rich or poor?

Let's learn about concepts like GNP, colonialism and humanitarian aid. Why does poverty exist in certain countries? How can more countries break free from poverty?

We'll take a closer look at all this.

## War and Peace

War is the subject of this video: what war is, and the rules that govern war. We'll be looking into aspects such as the role of the UN in conflicts and the consequences of war. And we explore concepts like interstate wars, genocide, ceasefires, and sanctions.

So, what does the UN Security Council do? What is International Humanitarian Law? And why do they say that children are hit

hardest by war? This video, created for Social Studies classes in junior high and high school, will give us some answers.
